

This is the current Descriptive Price List for the products we make in the scale and era in which you have expressed interest, based on your enclosed order. It will be updated on a regular basis and a copy sent with each future order. If more than a month has elapsed since you last ordered from us, and you are ordering by mail as opposed to telephone or internet, please contact us to ensure you are working from the latest list.

It will be fairly obvious to customers that we have had to institute a price code system, rather than printing a straightforward price against each item.

This has been necessitated by the number of products in our ranges (now approaching 20,000 and growing) and by the number of data bases we have had to develop over the years: the possibilities for errors, and the time needed to make changes have been considerable. The need to peg costs and prices is an ever-present spectre, and we hope that the reduction in previous costs and work enabled by this system will help us to do this and to provide you more quickly with more and better products.

The Price Code List included in this Descriptive Price List is applicable right across our own product range. The prices of paint and allied products retailed by us on behalf of other manufacturers are listed in the appropriate separate publication.

Simply make a note of the price code next to each product you require and convert it to £:p using the list supplied with this publication.

PLEASE USE A CURRENT PRICE CODE LIST FOR CORRECT UP-TO-DATE PRICES

The V reference number after each description refers to the Volume and Page number of our Everlasting Illustrated
