

The Basic Range

Vehicle Origination Prefixes Centreline Symbols FRH4800

The former made available separately to increase the flexibility of the system.

B= British Railways build
W= Ex-Great Western Railway etc.
Also N and K Suffixes

Vehicle B-Prefixes/ Running Numberset, First Part, Combinations FRH4801-4807

These sets make light work of wagon numbering when combined with the Second Part combinations on sheets **FRH4901-4907**. **NB: 000 combinations are provided on FRH4801.**

Full provision has been made for easily applying prefix-plus-4/5/6-digit numbersets without the need for intricate cutting. For black background patches, see **FRH4905**

Balance of Vehicle B-Prefixes/Running Numberset, First Part, Combinations. Useful Marking and Lettering : 1 FRH4807

Running Numberset/ Vehicle Weight Black Background Patches FRH4905

Optional. May be extended or cut down as required.

Vehicle Running Numbersets, second Part, Combinations FRH4901-4904

Add these 3-digit numbersets-001-999-to the sets on sheets **FRH4801-4807** and you have the complete easy-numbering part of the Fox System. **FRH4904** also includes some prefixes, tonnages and optional black backgrounds.

Other Useful Packs

Fast Traffic Stars:

Original Size
FRH4930 : Black
FRH4931 : White

Especially for use on tank vehicles of contrasting body colours.

Fast Traffic Stars:
